Instructor: Grigoryan Course #: 124A Quarter: Fall

Instructions: We are interested in your opinion of your instructor's teaching. This information will be used by the faculty and campus administration in evaluating your instructor. These surveys must be filled out and collected in class and returned directly to the department office by a student. The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Please respond to questions A and B on the ESCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor’s teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

   → online notes are EXTREMELY helpful, thanks!
   → applications to physics very cool!
   → take home midterm awesome!

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.
Mathematics Department – University of California, Santa Barbara

Instructor: Gregorian Course #: 124A Quarter: F10

Instructions: We are interested in your opinion of your instructor’s teaching. This information will be used by the faculty and campus administration in evaluating your instructor. Please respond to questions A and B on the ESCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor’s teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

Awesome! Lectures are very personal and conducive to learning. (Better than Carlos)
A nice thing was nice, typeset lecture notes online to supplement (read replace) the textbook.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

Why not start off with separation of variables and Fourier techniques? Reflection method is kind of neat but seems like a waste of time when a more powerful (and easier) technique is available.
Advice to physics student’s: go straight to 124B.
Mathematics Department - University of California, Santa Barbara

Instructor: Grigoryan  Course #: 124A  Quarter: Fall

Continue on back if necessary.

   Strengths: WONDERFULLY detailed, lecture notes online were very helpful; I used them more than the textbook... I would have gladly paid more $ for them than the textbook. Good use of time balanced with willingness to answer in-class questions.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   The textbook was nearly useless; I found his online notes much more useful.
Mathematics Department – University of California, Santa Barbara
Instructor: Viktor Griborjan
Course #: 124A
Quarter: Fall 2010

Instructions: We are interested in your opinion of your instructor's teaching. This information will be used by the faculty and campus administration in evaluating your instructor. Continue on back if necessary.

Viktor did an amazing job. This has been my favorite class since I started at UCSB, and I am very excited for the 2nd quarter. The only problems were that $\xi$ and $\eta$ are hard to write and that it is only a two course series instead of twelve.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

The course was a lot of fun and very informative. I really enjoyed the content even thought the book was awful.
Mathematics Department - University of California, Santa Barbara

Instructor: V. KTOR

GRIGORIAN

Course #: 124a

Quarter: Fall 2000

Continue on back if necessary.

Viktor tried very hard to make sure we understood the material. He made himself available often and helped us with homework problems whenever asked. He also graded fairly. He wanted to make sure he was teaching us well and gave us his own version of evaluations. I would take a class with him again.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

Very difficult class
Mathematics Department - University of California, Santa Barbara

Instructor: **Grigoryan**  Course #:  **124A**  Quarter:  **F10**

**Instructions:** We are interested in your opinion of your instructor's teaching. This information will be used by the faculty and campus administration in evaluating your instructor. These surveys must be filled out and collected in class and returned directly to the department office by a student. The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Continue on back if necessary.

   He is very well prepared for class and takes student input into account. The only thing that was hard to follow was lectures on the board. They were very unorganized and it made it difficult to follow problems because he pulled information from like 12 places and it was very difficult to figure out what he considered the final result of the problem.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   Very difficult, crappy textbook
   No examples for solving problems
   I felt like it was too much to learn in one quarter.
Mathematics Department – University of California, Santa Barbara
Instructor: Victor Grisogon  Course #: 124a  Quarter: F16

These surveys must be filled out and collected in class and returned directly to the department office by a student. The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Please respond to questions A and B on the ESCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor's teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

   Well prepared and organized. Could present material more straightforward, some time the material gets mixed up.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   Good.
Mathematics Department – University of California, Santa Barbara

1. Please comment on the instructor's teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

   [knows the subject in depth, gives help when asked. I would've preferred office hours not to be online but that's alright. Exams and grading seemed fair. I would've preferred homework to not be due on Fridays]

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   [good content, hard but not too tough. BOOK SUTLES. no examples or help in any way]
Mathematics Department – University of California, Santa Barbara

Continue on back if necessary.

Great Instructor. Improved even more with the mid-quarter progress check. Very clear, precise, explains difficult concepts.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

Very hard, whiteboards would be nice, physical condition of room is too hot, change textbook.
Instructor: Viktar Grigoryen  Course #: Math 124  Quarter: Fall 2010

(For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

   Initial: Grigorjan is a very good professor. His lectures are very organized and clear. He gives us simplified lecture notes that are very helpful. In fact, his lecture notes are better than our textbook. He is very helpful during office hours. He breaks down the material in easy ways to understand.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   Textbook is basic.
Mathematics Department – University of California, Santa Barbara

   One of the best Math teachers at UCSB.
   The only comment I would make would be to do more examples in class. Even some of the examples done in class are little too simplistic compared to the questions.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   Hard, hard class.
