Mathematics Department – University of California, Santa Barbara

Instructor: Prof. Grigorjan  Course #: 124 A  Quarter: Fall 2011

Instructions: We are interested in your opinion of your instructor's teaching. This information will be used by the faculty and campus administration in evaluating your instructor. These surveys must be filled out and collected in class and returned directly to the department office by a student. The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Please respond to questions A and B on the ESCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor's teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

   Excellent class! This course was my favorite math class that I have taken so far. The lectures were clear, well thought out and very engaging. The online notes were very helpful as well. Online office hours worked better than I expected and it was nice to have office hours late in the day as I have classes during almost all my other teacher's office hours.

   Thank you for a great quarter 😊

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   The book could have used some more detailed examples. Overall everything was fine.

Please respond to questions A and B on the ESCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor's teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

   His speech is a little bit fast
   He always tries to understand what he said in class

   The homework problem is affordable.
   But sometimes it is hard to solve in one week.
   The lecture is so good : D

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   The speed of lecture is a little bit slow
   (I think)
   And
Instructor: [Signature] Course #: 124A Quarter: Fall 2011

Please respond to questions A and B on the ESCL Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor's teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

   Excellent professor. Very good at explaining concepts when they are a little more advanced. Also makes sure to explain the "background" of the problem so students don't just know how to solve the individual problem but understand them. I also really like how the homeworks have LaTeX templates available. You can tell he really likes teaching.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   Course was not too difficult, but I think a lot of that is due to the professor's good explanations.
Instructions: We are interested in your opinion of your instructor's teaching. This information will be used by the faculty and campus administration in evaluating your instructor. These surveys must be filled out and collected in class and returned directly to the department office by a student. The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Continue on back if necessary.

- Good explanations
- Good notes online (really helpful)
  most of times better than the book

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

I think the room should be bigger. It was quite difficult for me to understand the writing on the blackboard from the back.
Mathematics Department – University of California, Santa Barbara

Instructor: Victor Grigoryan
MATH 124A Quarter: FALL '11

Instructions: We are interested in your opinion of your instructor’s teaching. This information will be used by the faculty and campus administration in evaluating your instructor. These surveys must be filled out and collected in class and returned directly to the department office by a student. The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Please respond to questions A and B on the ESCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor’s teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

   Strengths: 
   - explains things pretty well
   - willing to answer questions
   - good in office hours
   - lecture notes online (detailed!)

   Weaknesses: Sometimes starts a problem/proof on the board but finishes it by just explaining it. He often verbalizes the key points of a problem but doesn’t write it down.

   Great Professor overall

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   - Book – pretty good ... needs more explanation of examples
   - Course difficult

   Great Professor overall
Instructor: Viktor Grigoryan  Course #: 124a  Quarter: F'11

Instructions: We are interested in your opinion of your instructor's teaching. This information will be used by the faculty and campus administration in evaluating your instructor. 1. Please comment on the instructor's teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

Are there any other PDE's books? The one we use is absolute crap, doesn't have enough examples. The professor was extremely well prepared, systematic. The online lecture notes were essential given the difficulty of accurately copying down equations. He was a particularly harsh grader. However he offered a lot of resources.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

A revision of methods of solving ODE's would have been appreciated. The black board in the room was too low almost everything written below the midline was not visible unless you are in the 1st row.
Instructions: We are interested in your opinion of your instructor's teaching. This information will be used by the faculty and campus administration in evaluating your instructor. These surveys must be filled out and collected in class and returned directly to the department office by a student. The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Please respond to questions A and B on the ESCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor's teaching strengths and weaknesses.    Very knowledgeable
   Quiet doing lectures
  感兴趣 in subject

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   hard, textbook is okay
Mathematics Department – University of California, Santa Barbara

Instructor: Gregory Carr  Course #: 174A  Quarter: F-1

Instructions: We are interested in your opinion of your instructor's teaching. This information will be used by the faculty and campus administration in evaluating your instructor. These surveys must be filled out and collected in class and returned directly to the department office by a student. The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Please respond to questions A and B on the FSCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor's teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

   Good teacher
   Extremely smart
   Helpful in office hours
   Very willing to answer questions
   Final is weighted very strongly (possibly too much)
   Generally clear in explaining

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.
