Mathematics Department – University of California, Santa Barbara

Instructor: Grijalva  Course #: 8  Quarter: Spring

Instructions: We are interested in your opinion of your instructor's teaching. This information will be used by the faculty and campus administration in evaluating your instructor. These surveys must be filled out and collected in class and returned directly to the department office by a student. The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Please respond to questions A and B on the ESCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor's teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

Vig well organized, however course was much more difficult than anticipated. I've heard it was much more difficult than previous quarters.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

Room was poorly organized. Course was much more difficult than anticipated.
Instructions: We are interested in your opinion of your instructor's teaching. This information will be used by the faculty and campus administration in evaluating your instructor. These surveys must be filled out and collected in class and returned directly to the department office by a student. The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Please respond to questions A and B on the ESCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor's teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

   - very organized and great explanations.
   - clear

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   interesting class, difficult and challenging
Instructor: Victor Grigoryan  Course #: MATH 8  Quarter: S '10

Instructions: We are interested in your opinion of your instructor's teaching. This information will be used by the faculty and campus administration in evaluating your instructor. These surveys must be filled out and collected in class and returned directly to the department office by a student. Continue on back if necessary.

   Overall very good explanations
   Tests were pretty fair
   Section quizzes were a little more difficult than I thought they should be
   The quizzes took half hour of section time which was a lot

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   Room Phelps 1420 is a bad room to have lecture in
   seats/table unorganized
   book was good
   content and difficulty were good
Mathematics Department – University of California, Santa Barbara

Continue on back if necessary.

   Gregory was a good teacher. My only concern about his teaching was about the examples he used in class. His examples in class were very simple, and when I tried to do the homework, it was difficult to understand because the homework problems were much harder than the class examples. However, he taught at a good pace, was clear, and answered questions.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   Hard course. I don't want to take it again.

1. Please comment on the instructor's teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading.) Continue on back if necessary.

   Strengths:
   Clear explanations, coherent speaking, step by step instruction.

   Weaknesses:
   Class was difficult so hard to tell.
   Not a fun class

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   Good book! but needs more examples.

   Math 8 needs class because mathlab is many times insufficient. This is an intro to higher math.
Great prof. is always on time, willing to explain any questions. Moves at a good pace and has a good attitude toward students.

The book and content of the class were fine, but the room was crappy.
Mathematics Department – University of California, Santa Barbara

Instructor: GRIGORYAN  Course #: 8  Quarter: S110

The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Please respond to questions A and B on the ESCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor's teaching strengths and weaknesses (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

GRIGORYAN knows the subject well but at times it was difficult to understand the "why." He was well organized and was prepared for lecture. The book could have been improved with more discussions and student participation. The book could have improved this class.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

The book does not teach anything and needs more examples.
Mathematics Department – University of California, Santa Barbara

Instructor: Gregory Course #: Math 8 Quarter: Spring 2020

Instructions: We are interested in your opinion of your instructor’s teaching. This information will be used by the faculty and campus administration in evaluating your instructor. These surveys must be filled out and collected in class and returned directly to the department office by a student. The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Please respond to questions A and B on the ESCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor’s teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, boardwork, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

   **Strength:** Spoke very clearly during lecture and was effective at getting his points across.

   **Weakness:** I feel that the book and homework difficulty level was much harder than the lectures were. Also, section was essential for me to do the homework, but having the problems done for us is not the best way to learn the material.

2. Please comment on the course (for example: Content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

   The book was very difficult for me to understand and the homework problems were very hard to complete based on info in the chapter and would have been impossible if not for sections.
