Logical Status Exercise

Answer the following questions about the logical status of wffs:

Name: [   ]

E-mail: [   ]

1. The negation of a contingency is a

contingency

2. The negation of a contradiction is a

contingency

3. A conditional whose antecedent is a contradiction is a

contingency

4. A conditional whose antecedent is a tautology and whose consequent is a contradiction is a

contingency

5. A disjunction where both disjuncts are contradictions is a

contingency

6. A conjunction where one conjunct is a contingent wff is a

contingency

7. A disjunction where one disjunct is a tautology is a

contingency

8. A biconditional where both parts are contradictions is a

contingency

9. A biconditional where both parts are tautologies is a

contingency

10. A conditional whose consequent is a tautology is a

contingency
